DECISION CLOSING PROCEEDINGS

These proceedings were opened to accommodate applications for energy efficiency programs in California for 2000 and 2001. However, those programs have since been supplanted by programs for subsequent years, and the proceedings no longer need remain open. We therefore close the proceedings at this time.

On May 13, 2003, the assigned Administrative Law Judge sent a ruling to the affected service list proposing to close the proceedings and asking any party that believed we should not close them to file and serve comments no later than 15 days after mailing of this ruling. No party filed comments.

The Commission recently adopted a decision ordering a financial and management audit of past energy efficiency programs, including those for 2000 and 2001. However, the Commission entered its order in a later docket, Rulemaking (R.) 01-08-028, and we do not need these proceedings open to accommodate the audit.

Therefore, we order that these proceedings be closed.

Uncontested Decision

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

Assignment of Proceeding

Loretta M. Lynch is the Assigned Commissioner and Sarah R. Thomas is the assigned Administrative Law Judge in this proceeding.

Findings of Fact

1. The programs these proceedings were opened to consider have now concluded and there are no remaining issues to resolve.
2. The Administrative Law Judge gave parties an opportunity to file and serve comments if they wished the Commission to keep these proceedings open, and no party filed such comments.
3. The Commission ordered its audit of energy efficiency programs for 2000-01 in R.01-08-028, so this proceeding need not remain open to accommodate that audit.

Conclusion of Law

These proceedings should be closed.

O R D E R

IT IS ORDERED that these proceedings be closed effective immediately.

This order is effective today.
